GLAZE TECHNO FACADE SYSTEMS PVT. LTD.

GLAZE TECHNO FACADE SYSTEMS

OUR PROFILE

OUR VISION

**” To become Company of First Choice in its own segment by Rendering Customer Satisfaction to its Outmost Delight.
“By Maintaining a Cut Above The Rest”**

To embrace a new paradigm of technological advancement

It is indeed an opportunity to introduce ourselves as pan India, leading FACADE CONTRACTS COMPANY.

We at Glaze Techno Facade Systems an ISO certified and Bureau Veritas, approved accreditation has three decades of experience in creating and delivering the wide variety of facade design and build projects.

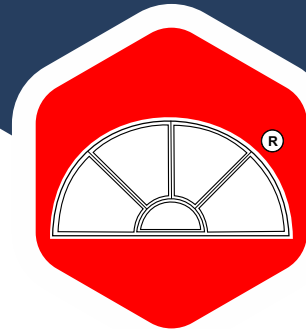

Every project has its dimension adding to more vision for perfection, thus proving to be a choicest company overcoming the competitive edge.

Our In-house design team of 25 engineers is grimed to the latest technology and withstands huge capability in creating valuable facets, with a great selection of glass, creating a valuable package with utmost precision. Our in-house project team of 125 people is highly experienced in handling projects towards the length and breadth of the nation. Understanding of the project life cycle and its CPM has been the major asset to always deliver projects in time.

cont.....

OUR TEAM

profile cont...

With more than 350 projects executed till date, with the ever-expanding team of Glaze Techno Facade Systems we look forward to create more and more landmark structures thus providing a highly reputed clientele with benchmarking facade solutions, in stipulated time with cut edge technology.

Glaze Techno Facade Systems holds major expertise in adaptability and ease of working throughout the nation. The in-house capability of having patented dyes and extrusions corresponds directly to the timely completion of the project thus maximizing the project deliverables.

We at GTFSL fully equipped to adhere to the guidelines per-say lead certifications for achieving various ratings for the project. We have various international associations, for one of a kind projects where latest trends and technology are a priority.
